

## KEY TO ABUNDANCE CODES

C = common; seen nearly daily in appropriate season(s) in low to medium numbers  
 U = uncommon; annual in appropriate season(s) in medium numbers (11-50/year)  
 R = rare; probably annual in appropriate season(s), but in low numbers (1-10/year)  
 X = accidental; <4 individuals recorded  
 NB= non-breeding;  
 I = introduced  
 (s) = spring; (f) =fall  
 (▲) = increasing distribution; (▼) = decreasing distribution  
 Reports of species on the Colorado Bird Records Committee (CBRC) Review List, www.coloradobirdrecords.org, should be submitted electronically for review and future inclusion on this list.

# CHICO BASIN RANCH

CHECKLIST OF BIRDS  
EL PASO AND PUEBLO COUNTIES  
COLORADO ~ FEBRUARY 2017

The official **CHICO BASIN RANCH** bird checklist was created in December 1999. Since then additional migrant and a few breeding bird species have been documented and added to the checklist on a yearly basis. For 2017, the taxonomic order of bird families has changed significantly and this list reflects those changes along with ongoing changes to abundance and seasonal codes.

As of February 2017, 340 species (including three introduced species) have been documented on the Chico.

Many thanks to all the birders who submit their Chico bird records to eBird and/or to the Colorado list serves, with a special shout out to the many visiting Colorado and out of state birders who report their sightings. Also, a big thank you goes to the bird banders from Bird Conservancy of the Rockies and their corps of volunteers. Tony Leukering created the first Chico checklist. Since its inception, Bryan Patrick has donated hours of his time on the checklist layout and Bill Maynard has been responsible for the yearly updates. This year's checklist cover photograph depicts a Short-eared Owl, a species wintering on Chico's abundant shortgrass prairies in varying numbers.

Short-eared Owl
